

## ***REMARKS***

### ***I. Amendment to the Drawings***

Due to a clerical error Applicant mistakenly submitted two formal versions of Figure 17 on February 9, 2004. The version that was labeled "Figure 17" was an improperly-rendered formal version of the figure as evidenced by the omission of certain features, for example the cable leading up the seat back to the headrest.

No new matter is added by submission of the replacement drawings. Newly-submitted, formal Figure 17 is fully and completely supported by the originally-filed, informal Figure 17.

In addition, all of the figures have been updated to reflect the fact that there are now only 18 drawing sheets. No new matter is added by this change, and all newly-submitted, formal drawings are fully and completely supported by the originally-filed, informal versions of the drawings.

### ***II. Amendment to the Specification***

The specification has been amended to reflect the submission of the correct version of Figure 17. No new matter is added by these amendments to the specification.

### III. Conclusion

For the reasons discussed above, Applicant respectfully requests that the Filing Receipt for the above-named application be corrected to reflect the original filing date of September 16, 2003.

As no new matter is added by any of the amendments herein and all amendments are fully supported by the application of September 16, 2003 as filed, prompt and favorable consideration of this Request is respectfully requested.
